

Kevin,

I just wanted to thank you for your efforts during my wife Tina and my hunting trip to Africa at the Sediba Nkwe Safari camp. This was our first trip to Africa and my wife's first hunting trip ever. I am always nervous when I am booking a hunting trip with someone I have not worked with before. I will definitely book again through Koeshall's World Hunting Adventures. You took care of everything and let me just stay focused on the hunt. It was truly my most memorable hunting trip.

I was impressed by the fact you and your son Kevin Jr. joined us on the hunt. Most booking agents sell you the hunt and you are pretty much on your own after that. You made this by far the easiest hunt I have ever been on. From the booking of the airfare, the packing lists, the transportation arrangements, the hunt itself, and the return trip, you had it all taken care of. All we needed to do was pack. You worry about things when you are in a foreign country but you had everything lined up and it went off without a single mishap.

The Sediba Nkwe Safari camp was beautiful and the staff was first class. Tina and I are already trying to figure out when we can make it back to Africa and I assure you it will be at that camp.

The accommodations at the camp were great. Our rooms were very comfortable and spacious. The meals were great! I really enjoyed our dinners in the main lodge. I will miss coming in after the days hunt and viewing all of the videos of our hunts and evaluations of our shots. It was great fellowship and I look forward to it on my next trip.

I have been on many North American big game hunts. I thought this hunt would be similar but just on a different continent. Boy was I mistaken. The amount and quality of the animals on the property was superior to anything I have ever experienced. My professional hunter was very knowledgeable about the game on the property and excellent at judging trophy animals for me. He was also very patient with my wife's inexperience and was able to help her take some great trophies.

The trackers at the camp were amazing! The African animals are the toughest I have ever seen and they tend to go a long way after they have been shot without leaving much sign. Those trackers stayed on the track of each of the animals until they were found. It was very impressive!

You have quite an operation over at the skinning shed. The skinners worked there butts off keeping up with us and did some of the highest quality hide preparation I have ever seen. That was a major concern for me knowing that I wanted to mount everything I killed. I know my trophies will look great when I get them back from you.

Probably the best outcome from the trip is that I have a new hunting partner in my wife. You can bet that when I start talking about booking another hunting trip to Africa through you I will be buying 2 tickets. She is hooked and you helped make that happen.

God Bless and thanks again for your efforts,

Bill Wilson
